Household Hazardous Wastes (HHW) are those wastes produced in our households that are hazardous in nature, but are not regulated as hazardous waste, under federal and state laws. Each person in Pennsylvania produces an average of four pounds of HHW each year, or about 25,000 tons/yr. state wide. Included are such items as old paints and paint related products, pesticides, pool chemicals, drain cleaners, and degreasers and other car care products.

Please check the [Zero Waste Pittsburgh](http://www.zerowastepittsburgh.com) web site for Household Hazardous Waste Collection info or call PRC at 412-488-7452.

*Moon Township's Recycling Day is sponsored by the
 Environmental Advisory Council
 with the support of the Board of Supervisors.*
